

Men and Women 18 to 65 years old

The Human Movement and Balance Laboratory at the University of Pittsburgh is conducting a research study on
Ladder Climbing Configurations

You may be eligible to participate in the study if you:

- Are between the ages of 18 and 65
- Are less than or equal to 6'5"
- Are less than or equal to 300 pounds
- Are physically able to climb a ladder
- Do not have existing balance problems

If you participate in this study:

- You will be asked to come in for 1 visit lasting 2-3 hours
- During the visit, sensors will be placed on you and the movement of these sensors will describe the way you climb a ladder
- During part of your session, you will climb ladders multiple times
- You will be paid up to \$120 along with parking expenses

For more information, please contact **(412) 624-9261**.
